

Chapter – 6 History

Kingdoms Kings and Early Republic

- In the later Vedic period, the tribal organization changed their identity and gradually started shifting into a territorial identity called Janapada or states.
- These states consisted of a single tribe like Shakyas and Molas or people from the Ganaga Valley called Aryans.
- They did not incorporate people outside the Aryan pole.
- There was, therefore, a strong consciousness of the pure land of the Aryans called Aryavrata.
- **What is Janapada:**
 - (i) The term Janapada is a compound composed of 'Jana' meaning tribe and 'pada' meaning foot. Its literal meaning, thus, is realm and subject population.

 - (ii) In a monarchy, king was the head of the state. Magadha was its example.
 - (iii) In a republican system, state was ruled by an elected chief called Ganpat. Mallas was its example.
- **Taxation:**
 - (i) As Mahajanapadas needed huge amount of money, they imposed taxes.
 - (ii) One-sixth tax was fixed on crops; tax on crafts persons, herders, goods bought and sold through trade.
 - (iii) Further hunters and gathers had to give forest produce to the raja.
- **Agricultural System of Mahajanapadas:**

- **Magadha and Vajji**

- (i) Magadha in South Bihar, on the banks of river Ganga was a fertile and industrial area which contributed to one of the most powerful kingdoms and some great kings like Bimbisara and Ashoka in India.
