TOTAL	8(8)	6(12)	6(18)	3(12)	1(10)	24(60)

SUMMATIVE ASSESSMENT-II,  
CLASS-VII  
MATHEMATICS

2015-16

TIME -2.30 HRS

MAX. MARKS-60

General instruction;

- (a) Attempt all questions
- (b) The question no.1-8 carry 1mark each.
- (c) The question no.9-14 carry 2 marks each
- (d) The question no.15-20 carry 3marks each
- (e) The question no. 21-23 carry 4 marks each
- (f) The question no.24 (OTBA) carry 10 marks

SECTION-A

- 1. Two line segments are congruent if-----
- 2. When we write  $LA=LB$  we actually mean-----
- 3. One half of the sum of numbers  $x$  and  $y$
- 4. Sum of numbers  $a$  and  $b$  subtracted from their product
- 5. What other name can you give to the line of symmetry of a circle?
- 6. Name any two figures that have both line symmetry and rotational symmetry.
- 7. Solid shapes are of-----dimensions
- 8. The corners of a solid shape are called its-----

SECTION B

- 9. Show that in an isosceles triangle, angles opposite to equal sides are equal.
- 10. In a computer lab, there are 3 computers for every 6 students. How many computers will be needed for 24 students?
- 11. Find the whole quantity if 8%of it is 40 liters
- 12. Which is greater in the following,  $\frac{2}{3}$ ,  $\frac{5}{2}$ ?

13. Find the sum  $-9/10 + 22/15$

14. Write the following rational numbers in ascending order  $-3/5, -2/5, -1/5$

### SECTION-C

15. In a city 30% are females, 40% are males and remaining are children. What percent are children?

16. Find the value of  $-1/8 \div 3/4$

17. The perimeter of a rectangular sheet is 100 cm if the length is 35 cm, find its breadth, Also the area of the sheet.

18. If the circumference of a circular sheet is 154 m, find its radius. Also find the area of the sheet (Take  $\pi=22/7$ )

19. What should be added to  $x^2 + xy + y^2$  to obtain  $2x^2 + 3xy$ ?

20. If  $a=2, b=-2$  find the value of  $a^2 + ab + b^2$ .

### SECTION - D

21. I buy a T.V for Rs10000 and sell it at a profit of 20%. How much money do I get for it?

22. Find the cost of polishing a circular table top of a diameter 1.6 m if the rate of polishing is Rs15/m<sup>2</sup> (Take  $\pi = 3.14$ ).

23. If  $\triangle DEF \cong \triangle BCA$  write the parts of triangle BCA that correspond to

a) angle E.

b) EF.

c) angle F .

d) DF.

## OTBA

### THEME - NUTRITION

Answer the following questions on the basis of Abstract and data given:

1. What is modern nutrition? 2
2. How many items on Mc Donald's entire menu containing no sugar? 1
3. Give the daily recommended target intake by the age of children 1-3 years. 1
4. Create a bar graph to represent any five whole grains nutrition facts in the form of protein based on the given chart. 3
5. Mark a bar graph to represent any five fruit nutrition facts in the form of iron percentage based on the given chart. 3

OR

### THEME - BMI

Answer the following questions on the basis of Abstract and data given:

1. What is BMI? 2
2. Write the ideal weight of a man and a woman for the height of 165 cm on the facts based on the given chart. 2
3. Given the BMI ranges for adults of weight status :-  
Under weight, overweight, normal or healthy weight and obese 3
4. What are 6 main health consequences of obesity for adults? 3

$$50=35+B \quad 2$$

$$B=50-35=15$$

$$\text{Area of rectangular sheet} = L \times B = 35 \times 15 = 525 \text{ c.m}^2 \quad 1$$

18. Circumference of circle =154

$$2\pi r = 154 \quad 1$$

$$2 \times \frac{22}{7} \times r = 154$$

$$r = \frac{49}{2} \quad 1$$

Area of a circle =  $\pi r^2$

$$= \frac{22}{7} \times \frac{49}{2} \times \frac{49}{2} = \frac{3773}{2} = 1886.5 \text{ c.m}^2$$

$$19. \text{ Required expression} = (2x^2 + 3xy) - (x^2 + xy + y^2) \quad 1$$

$$= 2x^2 + 3xy - x^2 - xy - y^2 \quad 1$$

$$= x^2 - y^2 + 2xy \quad 1$$

$$20. (2)^2 + 2 \times -2 + (-2)^2 \quad 1$$

$$= 4 - 4 + 4 \quad 1$$

$$= 8 - 4 = 4 \quad 1$$

21. C.P of the T.V =Rs 10000

$$\text{Profit} = 20\% \text{ of } 10000 \quad 1$$

$$= 2000 \quad 1.5$$

$$S.P = C.P + \text{Profit}$$

$$10000 + 2000 = 12000 \qquad 1.5$$

22. Radius = D/2

$$\text{Area of circular table top} = \pi r^2 \qquad 1$$

$$= 3.14 \times (1.6/2)^2 \qquad 1$$

$$= 1.57 \times 0.8 \times 1.6 \text{ m}^2 \qquad 1$$

$$\text{Cost of polishing} = 15 \times 1.57 \times 0.8 \times 1.6$$

$$= \text{Rs}30.144 \qquad 1$$

23. a)  $\angle E = \angle C$     b)  $EF = AC$     c)  $\angle F = \angle A$     d)  $DF = AB$

24.        **Theme – Nutrition**

1. Modern nutrition research has moved on to concepts of functional foods, molecular nutrition and nutritional based health. 2
2. 7 items 1
3. 24 gms 1
4. Create a bar graph by taking 5 fruits on horizontal axis and percentage of protein facts present in that fruits on vertical axis. 3
5. Make a bar graph by taking any 5 whole grains on x-axis and percentage of iron facts on y-axis 3

**OR**

**Theme – BMI**

1. BMI is a person's weight in kilograms divided by the square of height in metres.
2. Man's weight = 59 – 72 kg and woman's weight = 53 – 70 kg
3. Following is the BMI of adults of various weight status :
 

Underweight	Below 18.5
Overweight	18.5-24.9
Normal/healthy weight	25.0-29.9
4. 6 main consequences are : -
  - a. High blood pressure
  - b. Type 2 diabetes

- c. Coronary heart disease
- d. Stroke
- e. Gallbladder disease
- f. osteoarthritis
